

Rapid Church Planting

Accelerating a World-Wide Discipleship Movement

With Gunther Hess

(Transcript)

Joseph Peck: Welcome, everybody, to Webinars777, the global leader for life changing webinars to empower dreams, transform communities, and disciple nations.

I'm Dr. Joseph Peck, the time doctor. My passion is creating a movement empowering dreams in millions of people, globally, through coaching, journaling, and life changing webinars.

The title of today's presentation is "Accelerating a Worldwide Discipleship Movement". Our guest speaker is Gunther Hess. I will introduce him momentarily.

Know that we have entered the Kingdom Age. In Matthew's Gospel alone, Jesus speaks 24 times about the Kingdom of God and in all four Gospels together He only speaks about the Church twice. So the Kingdom is Jesus' original message, and we are rediscovering God's original blueprints.

Let me introduce Gunther. **The Lord has called Gunther to accelerate a worldwide discipleship movement by starting house churches and apostolic hubs around the world.** He's German, born and raised in Germany. He's got a home in Berlin and he's currently living in Pathos, Cyprus to establish an apostolic hub there. He's going to be retracing the steps of Paul, the great Apostle Paul.

As the founder of Rapid Church Planting, Gunther is a global leader in the worldwide discipleship movement, teaching about multiplication.

Jesus, in the Great Commission, in the last verses of the Gospel of Matthew He says, "Go and make disciples of all the nations." Gunther's taken Jesus serious at His word and He's helped Him do that, but He wants to empower you, to equip you so that you can play more of an active role in that.

He's a member of the European Coalition of Apostolic leaders. He's been married to Elna for about 30 years, and together they have two adult children.

Welcome to today's broadcast, Gunther. Is there anything you want to say to the audience before you say the opening prayer and get started sharing your story and talking about these other things that we mentioned?

Gunther Hess: Thank you, Joseph, for inviting me. We have known each other for several years. We've already done a quite powerful Deliverance training, online training, a few years back with amazing, amazing testimonies, and so I'm thankful to work together with you once again, of course.

Many people have told me ... and for a few years we have not been in touch really ... but a few people have told me, "**Joseph and you, you need to work together. You are two puzzle pieces but they belong together.**" And I strongly believe that today, it will not be just teaching, but it will be teaching that will activate something.

Before I start to teach on that, I want to invite the Holy Spirit to be with us and to help us and to use our mouth.

[Prayer] Holy Spirit, I want to be like a leaf in Your wind, and I thank You that every word that You will speak today through me will accomplish what it says, 200%. Thank you. Amen.

Joseph Peck: Amen. Well, Gunther, you're on. Let's start with your story, because when we were talking in the past week, you were sharing your story about how you talked to your wife before you ever went hook, line and sinker going this direction to make sure that you had her full support. Yeah, let's start with your story, wherever you feel led to start with that.

Gunther Hess: Okay. Let's start with my story and I quickly will rearrange what I wanted to say.

My story is the next slide. When I was 13 years old, the Lord called me to serve Him. At that time I literally did not understand anything as I was part of a Lutheran church, I simply knew I want to serve the Lord. That's why I started to study theology. Later on after studying theology, I got saved, so sometimes things like that happen. Then I went to a Bible school and I was so completely sold out to the Lord, but afterwards somehow nothing really happened. I studied again and became a business consultant. My wife was quite happy with me as I brought a lot of money to our house and we were quite well off at that time.

When I was a business consultant, the Lord started to speak with me. I was more than surprised because at that time, I started to be not that close to God anymore, but in the

Marriott hotel in the 42nd floor, very surprisingly He started to speak with me about my calling. In the dream, that was an amazing experience. You can't believe how struck I was. I was in awe to hear the Lord's voice in a dream speaking directly to me, and He said these very words. To this very day, these words are the motivation for getting up, for working really hard, and for not giving in in any way.

He said to me, "**Gunther, I will give you three gifts: Love, knowledge, and technical skills to build houses.**" I had no clue what building houses actually means. Later on I understood, it's about house churches. It's about building apostolic hubs, and I'm so glad that today I am able to speak to people who have been trained in that [inaudible 00:06:32] through [inaudible 00:06:34], through Joseph, and other people here on this broadcast.

I think you will be very open. You were the first one to understand about what I'm talking later on when I speak about apostolic hubs because apostolic hubs are very, very high on the agenda of God. God has called us to a new age and it's called the Kingdom Age.

In this age, it's not anymore about my organization, my little church. Jesus, like Joseph already mentioned at the beginning, Jesus barely spoke about church but He said, "I've come to bring my Kingdom ... "

My Kingdom. That means that **the Kingdom is something where there is God's uncontested rule**, best expressed in Philippians 2, for example, where it says that every knee shall bow and confess that Jesus Christ is the Lord. That's God uncontested rule over everything. The Church much too often has called, "Come and become a member," but that's not the story of the Gospel. The Gospel says the reign of King Jesus Christ will come on earth, and we enforce that.

As I speak to apostolic people today, there will be an activation today of this prophetic word. I know that many prophets have spoken about apostolic hubs and these apostolic hubs have been prophesied over and over and over again, but there's one secret I want to tell you. **The prophetic needs to be activated by the apostolic.** The prophets are the first ones that receive what is going to happen, what is on God's agenda, but then an apostle has to come in. If you believe me or not, God has called me to be an apostolic leader in this movement, to activate things.

Maybe that sounds to you now, "How can we activate these words?" God has sent me here to Cyprus and I will share in a minute how He sent me in a quiet, supernatural way with the support of my wife, but with experience [inaudible 00:09:06] here, you won't believe it.

One night the Lord appeared to me and He showed me the principality over this town, over this island, and it's the spirit of Leviathan. I saw it and it was so ugly, it was so evil, but it was as well so powerful.

I spoke with a prophetess about my dream and she said to me, I was a little bit surprised but she said, "That means Psalm 18. God will thunder over the [inaudible 00:09:40], that's what it says in Psalm 18."

We went to our little prayer meeting here, we call that deep prayer, and we made declarations with Bible words over the spirit of Leviathan. In the second, I said that this spirit of Leviathan is bound. When I mentioned these powerful words of God, there was a seaquake. There was an earthquake 18 kilometers before Pathos, where I was or where I am at the moment, and it was 5.6 earthquake, 5.6.

By speaking the word of God with the authority God has given us, we can activate that, and God, recently He has spoken to me in a dream. It was three weeks ago. I assumed that it was an angel. He simply said, "There will be a turnaround. There will be a turnaround, and there will be a worldwide rollout of apostolic hubs."

Now you are asking maybe, "What is an apostolic hub?" The first picture that comes to my mind is my grandmother. On a Saturday, usually, when I was a child, the whole family, the extended family and my uncles and my cousins, we all gathered in the house of my grandmother. We had breakfast there, we stayed together, and that was the most important time for the family. Problems were discussed, we had fun there. It was family. We had meals together, but family things were discussed and decided, so that was the most important things.

If you ask me, "What is an apostolic hub?" I tell you first of all, it's a spirit, and it's very similar to what I've experienced with when we came together at the house of my grandmother. It is a spirit where people come together as friends, as family, as extended Kingdom family, and where the matters of the Kingdom are decided.

In different hubs, things will slightly look different. For example, we intend right now to rent a house with four or five bedrooms where we can invite people from [inaudible 00:12:20], where we live together, where we pray together and where we train people, but not in a way like [inaudible 00:12:30] in a church or in a conference, but like teaching, like in the family, exchange like in a family.

An apostolic hub, maybe that's my second definition. Later on we will see much deeper. The second definition is normally churches are driven by pastors. If you go to the Bible, that's not really the case there. Kingdom matters were decided by the apostles, so an

apostolic hub is a place where the five-fold ministry has its rightful place, which is an apostolic spirit who works together with the prophet, prophetic.

Before I go ahead, I want to create a picture in your mind and just imagine that actually a prophecy that someone gave me, and it's a prophecy I will definitely fulfill. Maybe just close your eyes for one second and imagine a wheel. On that wheel, maybe we go back to this picture with the wheel.

Sorry, there is a hub in the midst of this wheel, and this wheel is at rest and there is prayer going on. There's family life going on. People stay together. That's, for example, the house we want to have here in Patmos. This hub has connections with the wheel with spokes, so we speak to people. We develop relationships. By that we start a turning wheel, and this wheel will spark movements.

Just imagine we are sitting at that hub and through your great prayers, through the relationships you have, you spark movement worldwide.

A friend of mine, he is not very gifted. He has even a lot of fears. In the last two years, through a similar thing, he sparked worldwide, or he initiated, 8,000 new churches with 5 million new converts. I believe if we come together, and I will talk about that, how we can do that, that we can come together, if we come together and we pray, we will spark movement.

The second experience we had here in Patmos in the prayer group, I was greatly affected by someone. Basically it was the spirit of Jezebel, and it's again an example of how powerful it is to speak the Word of God and to activate things. Together with you, I want to activate this rollout of apostolic hubs today. It's a thing that will advance the Kingdom of God greatly on earth because these apostolic hubs are like resource centers, like training centers, that connect the house church movement, different churches, and bring a great, great revival.

We've prayed here against the Spirit of Jezebel and I announced to the group here that is gathered around me that it will rain in August here. Because it's a very hot climate here in Cyprus, statistically there's not one day of rain in August, so it's quite a daring prophecy that it will rain here in August. I announced that and I prayed, and guess what? On August 5th of last year it started to rain. Ever since, things have accelerated here, and the prophecy in Revelation is that once we overcome the spirit of Jezebel, we will rule worldwide.

That's what I believe the mandate God has given to me is, that He has given me the mandate to start apostolic hubs and house churches in different countries worldwide, and we've done that.

For example, maybe you ask yourself, "Well, Gunther has been called as an apostolic leader, but where do I fit into that?" I just can tell you that it's about apostolic teams. It's not so much about the apostle, it's about the team he is leading.

The best example to explain that is how we started a house church last year in Israel. In October we went to Israel. In our team, some of the people, they speak too much, okay? But then other people, they don't speak at all so they are much too quiet. Other people are too dominant, other people are too shy, so we are really a team of very peculiar people, how we often say. We went there and I did one thing when we were there. We were with friends there and I said, "We will not have our program. I completely canceled the program and we will listen to the Holy Spirit."

Through that, the Holy Spirit led us. We prayed for people in the village. We just had [inaudible 00:18:22] people. We made friendships, and even after we canceled all the big teachings after the week, someone came to me and he said, "Gunther, can you please come to my house and dedicate my house as a church? I want to start a house church." We went there and we dedicated and we prayed there, and I believe why they could take our teaching. It was because they saw, "Wow, these are just ordinary people. If they can do it, maybe I can do it," so they got encouraged through that. That's another example of how we start churches.

In February this year, as an apostolic team, we went to Wales and we were invited. I don't especially like it, but people invited us to knock on doors and to do evangelism. I said, "Okay, we are invited and we will submit to the local leadership." We went there, but God is so good. Before we even could knock on the first door, there was somebody waiting and saying, "Please come into my house. Can you pray for me?"

There was a lady, a mother, and she told me that she had not been outside the house for a long time. Her biggest dream, that's what she said, in life was to go around the corner to see the school of her daughter. She had panic attacks when she went outside. I think that's called agoraphobia, I can't pronounce it in English, sorry. She had panic attacks when she went out.

What I did not know at that time was that she had not been outside the house for 15 years. National TV had even done a documentation on her case. Doctors had been there, social workers, everything, so I said, "My Jesus will heal you. He can heal you."

Before I even could pray for her, her daughter came in and said, "Can I pray as well?" I said, "Of course. I will pray for you." I took her aside and I asked her, "What's your problem?" She said, "I have panic attacks as well." Immediately the Holy Spirit spoke to me and He said, "It's about abortion." I asked her about abortion and then the mother shouted, "Yes, that's why she has these panic attacks. That's why she cannot sleep." We prayed and we cast out a demon and I led her to the Lord by sharing the Gospel with her.

The mother saw it, got very excited. I went to her and I said, it was in wintertime, February. She had a very thin T-shirt and she was barefoot, nothing on her feet. I said, "Please put on your coat and put on your shoes." She asked me why. I said, "Well, if I pray for you, you're going to be healed." She said, "No." I said, "Well, I'm not here to play. I have no time for such things. I will not pray for you."

Then she rethought things a little bit and she said, "Okay, I'll put on a coat and put on slippers." At the beginning I was a little bit unhappy about slippers, I expected real shoes, but later on she told me after 15 years she did not even have real shoes, so I put my hands on her head and I simply said, "The power of God on you in Jesus' Name. Amen."

The next thing we did was we went outside and we had to walk for 10 minutes. She was still going outside, and as she is quite well-known now, a house church with seven people has started there. It's running now for half a year and it keeps going. That's how we start house churches.

Another story that quickly comes to my mind, I will speak more about Congo, where we've already started churches as well. A few years back, I did a webinar in South Africa and somehow the message went to Rwanda. They caught the message and 42 house churches were started.

You can be part of such a team through prayer, through online prayer or through going with us. More about that.

Now in the next slide, I will share more about how I came to this point, how Jesus led me. Here you see my wife. Joseph spoke already about her. After Jesus, I can honestly say that she's my best friend. She really is a great encouragement to me. I told you already that Jesus had spoken to me, He had called me, He had singled me out. I had already a lot of experiences, deliverances, people coming to Jesus, starting a house church, converting, a lot of things happened, but somehow, I still had a feeling that not much is moving. The financial situation kept dropping and dropping.

I shared with you I was a business consultant, so we went from here to very basic, and the devil, he does not sleep. When you start something he will attack you, and we were greatly attacked without any mistake.

One day I was ready to give in. I was really ready to give in, to give up, and I thought, "I will wake up my wife." That's what I have to do every morning when I wake up. I have to make a cup of tea and bring it to Elena and serve it to her. I thought, "I will bring the cup of tea to Elena and I will tell her, 'Elena, whatever you say now, I will do. I will obey you. If you tell me go back to the business world, be a business consultant again, I will do it. If you tell me that I stay in the ministry, I will stay in the ministry.'"

My estimation, my thought was, "Elena is clever enough. She, for sure, she will choose security. She will choose that I go back into the business world, earn a lot of money, have a good and a rich life. To my big astonishment she said, "Gunther, you will never give up. The Lord has called you and you will make it a success." I share this story because I want to really honor my wife. She is the best wife God could have given to me.

From that point, I still didn't know really how to get into a bigger ministry. One day, I said to the Lord, "There's not much happening outside. Yes, there are deliverances, there are these things, but I can't see things really moving. I will search Your beauty. I will search Your beauty."

You know that Bible verse in Psalm 27:4 where it says, "*One thing I desire: that I can see the beauty of the Lord all the days of my life*"? I searched for the beauty of God and I listened to a lot of messages from my [inaudible 00:26:30]. She always mentioned this famous prophet, [Bob Jones 00:26:34], and how helpful he had been at the beginning when they started the prayer movement. I helped the prayer movement. Then in my heart I whispered, "Lord, Lord, I know Bob Jones most likely will not get in touch with me and give me a prophecy, but Lord, if the next person closest to Bob Jones could give me such a prophecy, that would be amazing."

I know you will not believe me but it really happened. Fourteen days later a man called, and you know him, he's quite famous, Gary Beaton. He called me and he said, "I want to give you a prophecy." What I did not know at that moment was that when Bob Jones, he's dead now, but before he was dead, he was the one who really was his caretaker, who took care of his needs. He was the closest person to him, and he received, what do you call that, the shepherd's stick? The rod from Bob Jones later on.

He ((Gary Beaton) called me and he said, "**Gunther, you are an apostle. You have different gifts. You can teach and you can be pastoral, but your main calling is to be an apostle, to have an apostolic ministry.**" Then he sat there. It was on Skype, and he wept

over me and he brought this destiny in me. I was still searching the Lord and I thought, "Well, if nothing is happening, then the rest of my life, the rest of my life, I just will look for Your beauty, Lord."

That was the turning point. **That was the real turning point, when I had given up all these big dreams**, to all what I could do. My thinking still at a certain point had been like a business consult, but in the moment, I gave in. I died to myself. The Lord opened up things.

Then the next prophecy was, "You will go to Frankfurt and you will run with the apostles." At that time, I didn't know any apostle. At that time, I didn't know what will happen in Frankfurt. A few weeks later I got invited to speak before apostles in Frankfurt, and ever since, the rest is starting to become history or my biography.

Then much later, the Lord brought me to Cyprus. I was here nine weeks so I traveled around, met a few people. It was quite interesting. It was in 2015 in December I came home and I thought, "That was amazing. I will go back there."

The Lord, in the night He can speak very clearly to me. He said to me, "Go today and go back." I said, "Lord," when I woke up, "I have been away for nine weeks. I love my wife. It's before Christmas. I can't go. [inaudible 00:29:53] simply not acceptable. How can I do that to my wife and my children?" I thought the Lord would understand me.

The next day the Lord appeared again to me in a dream and He said one thing, "Gunther, don't play with me." I tried to discuss it with the Lord and I said, "Well, let's look, Lord." I tried to bargain with Him. That's what I do all the time, I bargain with the Lord, and I've learned He means what He means, so I said, "I'll go end of January. How about that one?"

The third night I had a dream from the Lord again. This time He did not speak, but I saw myself driving a bus on a highway. I was following the bus before me and then just for a split of a second, I fell asleep. That was already enough that when I woke up, the bus before me had turned to the right on another street, and I was on the wrong street. There was no way to turn around on the highway and I was going the wrong direction. That shocked me. It really shocked me, and I said, "Lord, I will obey. I will go."

I booked the flight, went to Cyprus, and I knew there was a great urgency to do something on that island. At the beginning I did not even understand what to do. Now I understand that we have to create, or we are about or we've already done it. We are an apostolic hub in [inaudible 00:31:32], and so that's the way I came to Pathos.

Pathos is a place, and as I speak to a prophetic audience you will understand that very easily, is historical and prophetic beauty in Cyprus, and especially here in Patmos. Pathos in the island of Cyprus is mentioned in Acts 13.

What did the disciples do in Antioch? They prayed, they did fasting, and they stayed together, but not just ordinary prayer. They did something I call deep prayer. They listened. They listened to the Holy Spirit, and finally, because they did it, the Holy Spirit could do something really new that never, ever had happened in Church history before. He sent out Barnabas and Paul as apostles to Cyprus. They came here to Pathos, this place I'm living here, and they did a great miracle. That's basically the first missionary trip and the first station on that first missionary trip.

Everything started here in Pathos. It started because people, and that's what I call an apostolic hub, came together. They prayed prophetically and they sent out people. They laid hands on them and send them to Pathos.

Now the historical and prophetic beauty is, if you go later on, you go maybe to Daniel 11:11. **The whole New Testament story will end or will start to end here in Cyprus** again because it says there in Daniel 11 that "The ships of Kittim (Cyprus)," and in new translations, "Ships of Kittim" is translated "Cyprus", "The ships of Cyprus." *Kittim* is an old word for Cyprus, and the town next to where I live, the place is called Kittim, so the district is called Kittim.

The Antichrist, the King from the North, will come again, but he will not be able to overcome the ships of Cyprus.

That speaks to me that we have to establish a strong Christian presence here in Cyprus. That's not the case yet because a mega church in the town I live here is 25, maybe in good days with a few tourists as it's a very beautiful place here, countries, seaside, everything, on good days maybe 30 people. That's the mega-mega church here in town, with retired British people.

It's not strong yet, but I came here, and others will come here as well. **We will work together as a team. We will strengthen this island with prayer. We will build a strong Christian presence here. This apostolic hub is of such great urgency for end-times events.**

That King of the North will come against Cyprus and he will be frustrated, so frustrated that he directly goes to Israel, and Israel from here, maybe Israel is around about 120-130 kilometers. He will go there, right to the temple in Jerusalem, go into the temple and commit this great what is called, "The great abomination."

The historical prophetic beauty is, it started here. An end-times event will be triggered from the Island of Cyprus, and I believe that's why the Holy Spirit put such an emphasis, such an urgency to send me to this very place. Right away, this picture here is made on a monastery here. People here are Greek Orthodox, and Greek Orthodox, it's so full of cultic rituals, you won't believe it. They kiss dead bodies, they kiss all these icons. If you watch a service, for sure you will get some headache.

On the next slide, let me see how to get there, **I want to speak about the Kingdom Age.** There is the development on how things have proceeded in the past. Respectively, of course, Jesus had given us everything when He died on the cross. The first Church had a lot of what Jesus had given them, and then in the Dark Ages, over time, more and more things got lost.

In the '70s we rediscovered, for example, the gifts. It was the era of the charismatic movements. We discovered **the gifts of the Holy Spirit.** In the '1900's and before that there was a whole Enoch movement. We discovered in the Lutheran movement that worship basically, just go to Wikipedia and read about all that.

The 1990's suddenly there was a big fight, I still remember. I was around there then already. "There is something like prophecy. No, it can't be. Yes, but it's in the bible. No." There was a big discussion. Nowadays most of the people know that yes, we have prophets, and it's still a valid gift.

Then later on we discovered the apostolic movement. And then suddenly people got aware we have apostles around us. It's not such a big thing, and most often they are not even recognized as they are very humble, but yet very effective people.

The apostolic age, then suddenly we ended into another age where **we discovered it's the Prophetic-Apostolic age.** These ministries started to work together and now the new emphasis, or the rediscovery, is that actually it's not about Church, it's not about organizations, but it's about the Kingdom. Today, unfortunately, I don't have time to teach on the Kingdom, the Age on that.

We are doing a Kingdom To Go School. We call it a Kingdom To Go School. It's a one-week school where we teach one week in a very effective way and gifts will get connected and people do things very often for the first time.

By the way, if you want to give me a compliment, the best compliment, what I love to hear and that's my heart, that's simply my heart, because one of the prophecies over my life is that **my ministry is about birthing other ministries.** My biggest joy, and the

biggest compliment you can give me is, "Gunther, we were in this training and I cast out a demon for the first time," or "I prophesied for the first time."

Just recently we had here in Paphos people from four continents, from Israel, from America. We lived together in a house.

I strongly believe that such apostolic hubs, it's not a conference, it's not like a church situation, but we cooked together and we had meals together. It was a family atmosphere and there was a couple, good friends of mine. They gave me a house during the time.

Every inch, every centimeter of their house was occupied with people either sleeping there or being there for the training. Of course I will not be able to ask them that every other week, to have their house for such an opportunity.

That's why we want now to rent a bigger house where we can buy it and live together with people, just to give you free highlights of the Kingdom age.

Well, I teach on that and I've taught on that in a row for weeks, that **the Holy Spirit**, He **is often so neglected** even in the charismatic church, where they used to work Holy Spirit, but who has real fellowship, day-by-day with the Holy Spirit? Who can say "The Holy Spirit is my best friend" just in the same way like Lena, my wife?

The Holy Spirit will be given His rightful place, and that means first of all that we forget our programs. Like I've shared at the beginning about Israel, we put aside our program and we listened to the Holy Spirit so we will be led by the Holy Spirit.

The second emphasis, **every child of God is a minister.** The five-fold ministry is there to equip the saints that they, not the five-fold ministry, the saints through the work of the ministry (Ephesians 4).

Revival fire will come. It will not be like ten huge crowded meetings, what we call afterwards, revival, no, but it will be sustainable revival fire through multiplication where one sparks off another one.

Do you still remember the picture I gave you, where you're at the hub, in fellowship with other people? You speak words and you have relationships, and that sparks a movement through the willing. That is what will happen in Kingdom Age.

On the next slide, I will show you that apostolic. I call them apostolic-prophetic hubs. A funny thing that comes to my mind, of course my pronunciation sometimes is just a little bit German. I have a German accent, maybe you haven't discovered. People told

me it's skewed in all kind of things. I always say hubs and people did not understand me. They said, "You have to eat something?" I said, "No, hubs," so I hope you'll get what I say.

The main characteristic of an apostolic-prophetic hub is that people will come and go. People will come, they will light like fires, and we will send them out. That's what we've done, for example, in this conference we are at here, which I just described. At the end we laid hands on people and we sent them out. It was simply fantastic and mind-blowing.

There is a prophecy about our hub, and it says at the airport at times in the future, you will not know if I am coming in from a mission trip, from a missionary trip, or I am going out to a missionary trip. "We just come and go," is a characteristic of such a hub, of such a place where people live together. The five-fold ministry will be there. It will be apostolic teams where the apostle organizes that everybody can share.

By the way, we mentioned that's like in a house church. That's what Paul says in I Corinthians 14. When you come together, one has something to share. I was very astonished two-and-a-half years back now. The first thing we've done here was, for half a year, I invited people for dinner in the evening. At the point people ask me, "What's the name of your church now?" I had to stretch my neck because I was so busy I had not even an idea what is this name. I thought well and I said to them, "The name is dinner." People laughed of course and later on we started not only to eat but as well to pray, and we said, "Holy Spirit, have your way." I was very astonished.

We are not highly advanced people, just normal Christians. The first thing the Holy Spirit did was to emphasis the roles we have in these teams. We confirmed someone as a prophet, we confirmed someone as an evangelist, and so on and so forth.

There is another person in the team and he's developing into a five-fold ministry. The end of next week, I will take this wonderful friend of mine and we will go to Turkey into an area. I will share that a little bit more later.

We will go to Congo together, one of the most dangerous places on earth right now. The murder rate there is higher than Kinshasa. At the moment, that's during war-time back there, can you imagine that, but we desperately need to go there to share the gospel. We've already started six churches in Congo, the Democratic Republic of Congo, and we will go there because I feel there is a potential for a church planting movement. That's what I'm always after, then deep prayer.

The second thing I've done when I came to Paphos was, I said, "Come on let's forget about all these prayers we've done in the past. We don't pray, we ask the Holy Spirit what to pray for. We will get rid of our rituals."

Yes, petition prayers which are good, but we really want to jump into this stream that is described in Ezekiel 48, where the water is like a trickle out of the holy of holies. Then you get ankle-deep and knee-deep and hip-deep, and finally it's a huge river where you can swim, and then the healing leaves will come to the nations. Let's take that chapter and jump and why we came up with the word, deep prayer.

I've mentioned it already and I've shared examples about Israel. Now going to Turkey, Bulgaria, it's about teams.

James Goll, I'm aware that he has taught a lot of time with Joseph together and he mentioned one thing about **the apostolic teams—it's not any longer a one-man show**. If someone is an apostle or a prophet, he should be one of the most humble persons in the team, but it's about the team.

The team is the winner, and when there is unity in such a little team, it's powerful and it's really true. Two, three, five ten, you don't need an awful lot of people. If you have unity, if there is an apostolic-prophetic influence, that will be powerful, even if you're just ordinary people, and the apostolic hub has family. It has my grandmother's atmosphere in it.

Did you know that there are a few discipleship movements or church planting movements at the moment with millions of new believers? Where are the main decisions made? In the kitchen of someone in an apostolic hub. I believe house churches, extended kingdom families, that's the new pattern. Yes, there will still be traditional churches. It has its rightful place, it's governed by a pastor, but like I said, an apostolic hub is where an apostolic influence governs, where finally we are going back to the original patterns.

In such a place, such a hub is an arch. People come in and are sent out. There is fellowship that really means what the Word says. People are committed, and I believe there will be different types of apostolic hubs. Together with you we will make declarations like this. Make the declaration over the spirit of revival, "And there was an earthquake and the earth shook," like you read that in Acts.

I still remember one of my mentors about spiritual warfare, he is from Nigeria, from Africa. I was his translator on TV, in German TV, and I did not know what he would speak about. I said, "Is there a mouse hole so I can escape so nobody sees me and connects

me to this strange man here?" The first thing he said is, "An apostle, when he prays, the earth will shake." Then he mentioned all these examples from the book of Acts when the early church prayed, the earth shook. The church prayed, the earth shook, the early church prayed, the prison gates were opened. I thought, "Gosh, when we had this experience here, the first thing I had done was, I shot an email to this man of God in Nigeria and his answer was, 'Well done, my disciple.'" I had just met him two weeks ago, a wonderful man of God. It's a place where people live together, maybe they share together and they work together.

We will go to Bulgaria where there is a very advanced, very good apostolic hub already there. How I met these people, it's simply supernatural. I bought a bag pack and it's called Power Nomad. We have an online prayer group, and just when this bag pack arrived through UPS, I took this bag pack and I told the people, "This bag pack is a prophecy. It's called Power Nomad."

Then the lord spoke to me, "Go to Bulgaria." I said, "Lord, I don't know anybody in Bulgaria." I waited, and within twelve hours I was on a plane, on my way to Bulgaria. Someone picked me up, drove me to a little village in the middle of nowhere and he explained about the organization, as I knew nothing. He said to me, "The organization is called Global Nomads," so I connected with these people. We will go there now for a few days before we do ministry to connect again with these people, and in this village they really do farming. They live with the people, they have peace, they have gardens and they plant things.

I believe that in some hubs, people will not only receive training or do things together or do mission trips, plant churches, the discipleship, but as well, there will be an element of working together or praying together.

Okay, we are here in Paphos. The main thing about Paphos mentioned in Acts 13:6 is that world missions started here in Paphos. I had a second, that was the biggest encounter I have ever had in my life with God. I woke up in the morning and the loud voice of the Lord was in the room. It covered the room. He spoke to me and He said to me something I did not understand initially. He said, "Go to the sermon's places but come back often," and that's the situation I'm living in.

Paul preached here in Paphos. I am here at this sermon's place and I go back to see my wife and family very often, to Berlin. I'm going back and forth.

Now we will go to Acts 16, and it's unbelievable. Nowadays there are only 15 born-again believers in a radius of 200 miles, no Christians at all, one single pastor there. One day I asked the Holy Spirit, "Holy Spirit, what is on Your heart now, today?" He said, "This

pastor is on my heart. Speak to him and encourage him." That was His answer. I wrote it in my journal, and that's why we'll go there. We will encourage him. Later on we will go to Bulgaria.

Just yesterday was mind-blowing. When I was in Bulgaria, somehow in the Spirit I knew, "I can't go where all the missionaries from the west go." They mainly go to the capital and to the nice places near the golden coast. There is a high density of missionaries, but nobody goes to the border near Turkey where there are little Turkish villages within Bulgaria. That's unreached area. I said, "We will go there."

Yesterday I received a call that's completely mind-blowing. We wept at the phone, or not at the phone, but the man wept before and he said, "There is a 92-year-old man, and he has built a house saying, 'This house will be for foreign missionaries.'" People laughed at him. They said, "Why are you doing that? Nobody is coming here. You are a crazy old man," 92 years. He said, "The Lord has spoken to me," and then yesterday I was told, "Gunther, you are now connected to this man. You will go there."

Most likely we are one of the first, maybe even the first people going there and serving there. God already has ordained our steps, has prepared everything in a mind-blowing way. I can't even think how that can be such a thing. We will go there and then we will go to Congo, it will be in September. Yesterday I got the yellow fever shot. It's one of the most dangerous countries, like I've already said.

Last year we got in contact with a very good pastor there. He has got a lot with Africa and so sometimes it's quite difficult, but this man has a character. You can see it. He is established in the Holy Spirit, and so he gave us a few young people. As they really don't have anything, they have to beg by airtime. That means they get for half an hour the internet and then the only thing they had was a smart phone.

When the pastor came from the capital, I was sitting here where I'm sitting now, and I taught these young people about multiplication, about discipleship, about how casting out the demon, how to start a church, and they grabbed the message. Many people got saved. They started six churches. Now there is a need to go there.

Pastor David, that's the pastor in Congo, I ask him, "Pastor, what is needed there?" He said, "Well I am quite often in villages, and the pastors in the villages, they will proudly show me their Bible." Then he tells them, "But it's not a Bible, it's just the gospel of Luke or whatever." Then they say, "Well we know, pastor, but when the rebels came and burned down the village, when they raped all the women, they burned as well our Bibles and that's what we have right now."

We will go there. Yes, we will preach, we will encourage people and we will pray that a church-planting discipleship movement is possible there, but as well, we want to bring Bibles. We depend on you.

Joseph told me that I should ask you to give something to partner with us financially so that we can go there, that we as well can bring things alongside with us. We are just strategizing.

When I was in India, that's on the next slide, a strategy, we call it Gideon 30-30 Strategizing, what we do, and you've seen the picture before, there was a picture of one of our online prayer meetings. We pray for half an hour, 30 minutes every day. That's the place where people get equipped. We pray every day together.

First of all, we care for one another, but as well we pray for all these places, Congo, Turkey, Wales, Israel. We will go to Finland. We will go to the Netherlands soon. What we do in each country, we are looking first of all for 30 prayer warriors.

Maybe you are a prayer warrior, or maybe you could be like a country coordinator, bringing together in new country 30 people who want to learn to pray or who are already experienced intercessors, 30 prayer warriors. Then afterwards, we appoint 30 area coordinators. We go through a country very strategically, area one and area two, and we appoint people. We focus on the strategy given to us.

On small villages, that's where we go, to small villages where all the German and American and English missionaries don't want to go as there is nothing, we go there. We go to the small towns as part of the Gideon 30-30 strategy. We will send out those passionate and ask the fainthearted to please stay at home, as it is more secure.

Maybe the Holy Spirit right now speaks to you. Yes, I am a prayer warrior. Yes I'm able to bring together 2, 3, 4, 5, 30 people. I start small most often, and I believe a strategy that is not passed and soaked in prayer is worth nothing. That's from the previous ages. Now we're in the Kingdom Age and it's all about listening and repeating the experience of the Acts 13 Antioch and Paul and Barnabas, who were sent out of the place where I'm sitting right now. That's the Gideon 30-30 Strategy.

On the last slide, I want to show you how you can partner with us in a very simple way in this worldwide discipleship movement. The first thing, like I've already shared on the next slide, is that we pray together. We have an online prayer group there. I think it's 7am EST and 4pm Jerusalem time. We pray together each day for 30 minutes, and that's the place where I watch people very intently.

First of all, just a story to give you an impression. Again, we are very ordinary people, and our prayers, nothing special. There is Joyce. I love Joyce, she is from Michigan, and Joyce comes every day. She is such a faithful golden heart. She told me that for 70 years basically, not many people in church recognized anything in her, but then she started to pray with us in the online prayer group. She brought the Spirit to her church, and suddenly the pastor got baptized in the Spirit. He asked Joyce, "Can you teach us to pray?"

What she taught them, well, she has a lot of knowledge but she brought the Spirit she caught in our online prayer group. You can read her testimony on rapidchurchplanting.net, that's our website. Look just for the testimony of Joyce.

You can partner with us by praying online or you can establish locally a prayer group, maybe connect it to us. It doesn't matter.

The second thing, as you've heard, we are constantly going out to do missionary work in many different countries. Yes, you're invited to be part of such a team. There are only two requirements. You can be very young, you can be very old, you can have no experience, no problem. The only pre-condition to be on such an apostolic-prophetic team is either be a faithful prayer warrior with us, come once a week, come five times a week, whatever, just be faithful there or attend one of our Kingdom School To Go, as we call it. It's one-week school. We either invite people to the apostolic hub here in Cyprus or we go to other countries. We export it, and we do it somewhere there, so you can be part of a team.

Then at the moment there is great urgency in that we meet. As I said, I can't ask always my friends to give me their house in such a crazy way. We need a house with 4-5 bedrooms, big enough to invite 30-40 people. There will be quite a squeeze there, but anyway, the cost for that is 24,000 euros. That's like the running cost on the rent. We need that urgently so that we can start, otherwise things will stop now for a moment.

I believe that how I described it, this end time calling on Cyprus requires that we move very quickly. If the Holy Spirit speaks to you right now, open your heart and ask the Holy Spirit, "Shall I partner with them financially and am I supposed to give something into that," maybe even more than something because there are as well all these upcoming travels to Turkey, to Bulgaria, Congo, and as you can imagine, there is a lot of cost involved in that.

Everybody who knows me, knows that I live financially the most sacrificial life you can imagine. I'm not asking for myself, I'm asking you kindly to consider to give because the nation towards these specific things mentioned here, the apostolic house here in

Cyprus, the travels bringing the gospel of the Kingdom to all these nations there, Turkey with a lot of unreached people groups.

Have you ever heard UPG, unreached people groups? A lot of them are there with Bulgaria, the poorest country in Europe. Congo is one of the most dangerous places on earth.

When we were at Wales, we shared part of the story and we had great prayer support. People prayed out their hearts, they were constantly online together. They prayed like crazy, and when we were in Wales, it was like we felt like pushed.

Another story, we were invited to a homeless shelter there as well and went there, somebody who wanted to make a big struggle there. A lot of people, it was actually a woman, I led her to the Lord, I cast out a demon from her, she completely changed. Nobody could really recognize her afterwards, this tender expression on her face, and afterwards we wanted to relax.

We went to a restaurant like a bigger group, I don't know, maybe 15-20 people there. Just nice lamb stew, that's what want to eat in Wales, and then the waitress came. Suddenly the Holy Spirit spoke to me and I asked this lady, "Do you want to have a prophecy?" She said, "Well, yes." I said, "Well come and sit at our table, we'll give you a prophecy." Then I shared the gospel with her and, "I ask you, do you want to follow Jesus and commit your heart to Jesus?" I really explained well what that really means, and she said, "Yes I want to do that," and we prophesied over her.

Then, there was a second waitress. I asked her, "And you as well?" She sat down as well, same procedure, sharing the gospel, prophesying, being born again.

Okay, and we were about to leave. Then I discovered that there was a third waitress. We went to the next room to this other third waitress and I asked her, what I said was, "Come on, that's really unfair of me. I've asked your colleagues if they want to have a prophecy but I'm so sorry I didn't ask you. So I offer you of course, we can prophesy for you." She said, "Yes, I want to have a prophecy." We shared the gospel, she gave her life to Jesus and she was saved, but the real success story was with the prayer teams.

It was like we were one team. One part of the team was in Wales outside, doing the work. The other part of the team, just as important as the other one, was praying with all of their hearts together.

Yes, I understand you maybe will not be able to go to Turkey, or maybe it's too dangerous for you. Maybe your health condition is not as it should be so you're not able

to go to Congo and other places, but still there are ways to partner with us in your name.

Have you ever read the book of Nehemiah? I'm always amazed to read all that name, it's important for God. It's important for God that your name is mentioned on the list for a success story.

Yes, we have lot of successes, a lot of things are happening, but my name will be as big or as small on this list as God's glory. It's not my glory, that's a thing I've learned. Never even dare to take glory for yourself, what has happened, but your name will be as big or as small as my name or the other team members. We kindly ask you to join us in prayer. Maybe someone of you wants to be a country coordinator or a prayer warrior. We invite you to partner financially for all the things mentioned here, the Apostolic House here in Paphos for end-time purposes, and missionary trips to many countries.

Thank you very much for listening. What's next, Joseph?

Joseph Peck: Well thank you, Gunther. That really touched my heart. I imagined it touched a lot of other people's hearts, too.

I hear in your stories you're just going to places where other people aren't going when you're talking about what happened when you went to Wales, about the 92-year-old guy who's, I think you said, was in Bulgaria in a small town near Turkey, who built a house for international missionaries and people there thought he was crazy, and now you're going to be going there. You were talking about just an activation of people, so I believe that that's happening.

Let me just ask this question first of all. How can people learn more about being involved with being part of the prayer team or as a country coordinator? Can you share a little bit more about how can they learn more about that if they're interested?

Gunther Hess: Later on I can give them my e-mail address. They can send me an e-mail. The next thing too will be I will send them a paper about country coordinators, about the mission trips, everything, so if people are interested I can first of all forward materials to them.

As well, I'll have to do Skype calls with people who are really interested. I don't have an awful lot of time, but people who are really interested, I will invest time and speak with them.

The most easy thing is they can go to the website. There is something called Online Church and beneath there's a tab called Online Prayer. There's a Zoom link. You just go there on "Time," click on the link. Be there and say, "Hi, I'm James from the Netherlands," whatever. Then you're there and you can flow with us in the prayer time.

Maybe the second thing, that depends on our itinerary and schedule which is quite heavy, maybe some people will be interested with, sometimes it's three days, sometimes it's a week, one of these Kingdom schools to go, how we call them. That's another way, of course, to contact with us. We are always about planting our churches and initiating apostolic hubs and we are surrounded, Joseph, as you know, with all these stories about all these amazing deliverances and healings, but it's all about establishing the Kingdom for church planting.

Joseph Peck: Thank you.

I have on the screen there, I've got the website address for www.apostolic-hub.com, which redirects to rapidchurchplanting.net where you have a variety of resources.

You talked about a school. You have an online school or certain resources that are available online, right? Can you tell me more about that?

Gunther Hess: Yes, so the church has to subscribe there and then we will send them a 14-day webinar and a lot of topical teaching starting from how to get baptized in the Holy Spirit to more advanced topics. There are quite a lot of resources and you can get it automatically sent by an e-mail once you've signed up.

Joseph Peck: For those of you in the audience, I just want to speak to you personally. I have really felt my spirit stirred just listening to this. Gunther is doing this in obedience to the Holy Spirit, his story that he shared about the Lord telling him shortly before Christmas 2017, Gunther had a dream, 15?

Gunther Hess: Mm-hmm (affirmative).

Joseph Peck: The Lord told him to go to Cyprus and Gunther explained to the Lord that his family is important and he needs to be there. Then he had another dream and he said, "Well, Lord, I'll go in a month or so," and then the Lord gave him another dream with a bus, which represents big ministry. Basically the bus was going down the wrong way down a street, heading for an accident. Gunther realized the importance of obeying. You can just see the authority that he carries because of his obedience.

If someone said, "I'd love to be part of the prayer team and also to contribute to partner financially," we'd send a follow up e-mail to you.

First of all, we have the RealPlayer link available to everyone who registered for the webinar. That includes those of you live on the broadcast, those of you who are watching the replay. If you want to make a donation, you can go to that website, apostolic-hub.com, right, and make a donation there.

They can also go to paypal.me/ApostolicHub. There's a misspelling there. It should be apostolic with a K, as in "ApostolickHub." I'll correct that on the slide, but anyway, Paypal.me/apostolickhub.com.

Now when I listen to Gunther's story, Gunther, you were talking about 24,000 euros. Euros are worth a little more than a dollar, maybe \$1.30. I don't know exactly what the conversion is right now, but you were saying with 24,000 euros that that would take care of the basic needs to have this apostolic hub going, really churning things up in Cyprus, 24,000 euros.

As I was listening to that, I was just thinking in my spirit that I have the faith to believe that two people will come forward to contribute for that and give \$12,000 or euros for that. If two people did that, that's not going to cover the expenses of going on these trips to Bulgaria and Turkey and the Congo, but you were talking about Cyprus being very significant in the end-times movement of God, very significant. You were there and people heard your story about how you had the first dream, the second dream got stronger, and the third dream was, "Gunther, you must obey," and you did.

Gunther Hess: Yes.

Joseph Peck: "You must obey," and you did, so people have a chance to be part of it. If they want to be part of a prayer team, can they join one of these weekly calls? The daily calls that you're doing, can they join that?

Gunther Hess: Mm-hmm (affirmative). Like I said, they just grab on our website under this online prayer group, they grab the Zoom link, they click on it and then they are automatically will be redirected to the prayer group. It's quite similar to how people came today to this webinar except that we can see each other, that's the beauty of it. We can see each other, we can interact like I'm interacting right now with you.

What is very important, three things that are important to me during that prayer time. First of all, we take care of those who are on board. If you have a personal need, we pray for you, and we not only pray one time for you but we are consistent.

Number two, we listen to the Holy Spirit. We do not just pray anything, we learn to flow, and that's a whole new level for many people.

Thirdly, we pray. You're connected to the purpose that God has given us as a rapidly church-planting- or apostolic-hub team.

Joseph Peck: Well, thank you. I'm going to read some of the questions that people submitted, and I'm going to call on Diane here just to get your verbal feedback, if you have a way to speak up.

What Gunther's talking about in these prayer meetings is they're using Zoom as a webinar platform where people can see one another so it makes them more personal, by seeing. 80% to 90% of communication is non-verbal.

You were talking about the first rule basically being the Holy Spirit's in charge. You don't just have programs, the Holy Spirit's in charge. It reminds me of the dream retreat that we did in Nashville, Indiana, the real Nashville a year ago, in May 2017. It was a private-invitation-only thing and we were full to capacity. I prepared a PowerPoint presentation that I figured I could get through in about 40 minutes if I didn't have any interruptions. I showed the first slide, "It always starts with the dream," and it was a two-and-a-half day thing. I never got to Slide #2 because the Holy Spirit took over.

As I said, I figured that during the first day, surely I could get through this 40-minute presentation, but I never did. They do something there they call "Waiting on God," you know, someone who's come down there that has done something in a nearby community in Indiana called "Waiting on God" where the [inaudible 01:21:27] open. You're not just doing the program, but it's about listening to God together and stilling your mind.

I love what you're doing, even your approach, the sequence that you do, and I believe that the people who partner with it, whether it's through prayer, whether it's through giving and through the other means that you listed, doing even something locally, you will get activated by participating on these prayer calls. It's a great way, and I believe that Gunther has tremendous authority in this area.

I know him, I knew him when we did a deliverance. We did a discipleship class, and I was amazed at how many people signed up for that and how their lives were changed. We did that back in 2015, then we did a class on deliverance and I couldn't believe how many people participated in that. The testimonies were absolutely incredible.

Anyway, Gunther is a global leader with this whole worldwide discipleship movement. I think you can tell just listening to him that he's very humble, that it's not about him and building a huge Gunther ministry. It's about empowering and equipping you to be a disciple and make other disciples, disciples who move into power and authority.

Gunther Hess: Mm-hmm (affirmative).

Joseph Peck: All right, I'm going to ask these questions here. I'm going to call on Diane first. She's participating actually in my I Was busy, Now I'm Not class. She's still on there.

Gunther Hess: Very good book, by the way, I've read it and I still benefit from this book today, Joseph.

Joseph Peck: Yes, well, thank you. I have the book sitting in front of me here because I narrated another chapter here in the past few days. When I'm struggling with time, I go back to read that book myself and I say, "This is a good book." It helps me get back on track again. I figured if I was the only one that read the book it would have been worth writing it as well.

Diane, I'm going to go ahead and call on you, I've said that several times. You're unmuted there. I hope you have a microphone so we're be able to hear from you.

Audience: I do, Joseph, and oh my goodness, Gunther, it is so touching to hear your story, to witness the anointing you've been given, and the way you're obedient to it. It just inspires me so much. I know others as well and so I, for sure, would want to participate. I will come to your prayer group and go to your site there and just look around, and I will commit to helping you financially ...

Gunther Hess: Mm-hmm (affirmative). Thank you very much.

Audience: ... because, you know, not everyone perhaps can leave their current situations to travel, such as you have been called to. Your family is totally supporting you and in agreement, but we can do other things as well. Praying is one of them, and listening to and waiting on the Holy Spirit to guide is another. I just love that I was invited on this call or this webinar and look forward to participating with you.

Gunther Hess: Looking forward to seeing you in the online prayer group.

Audience: Thank you.

Joseph Peck: Yeah, Diane's a firecracker. She's got a beautiful smile and it's clear she loves the Lord. She's [inaudible 01:25:16] to Him.

Diane, this is going to be a tremendous blessing in your life. There's a lot of people I can host on webinars and I wasn't planning on doing this today because it's the Fourth of July week. I'm going to be on vacation next week visiting with an Italian family, but I felt there was an urgency to this, to host Gunther, to get this message out, to make people aware.

I think that there are a lot of people who are going to want to partner in what you're doing, Gunther, because I really believe that there are certain key things that God is doing in the Earth. If we can recognize those, what He's doing, He's working through a lot of people but there are certain key things that He's doing, and I believe that this is one of them.

As you said at the beginning, Gunther, I forgot about what we were talking about a week ago. You said that you really sensed that there's the two pieces of the puzzle that are coming together, the rapid church planting and Empower 2000. Empower 2000, you had shared when we were talking together, or maybe when I was listening to another video recording that you had done, you had talked about that we both share the heart for God's brilliant soul vision ...

Gunther Hess: Yes.

Joseph Peck: ... and you're doing something very practical for that. I'm doing something practical for that that is significant. It's important that Empower 2000 help get your message out, make people aware of what you're doing, and ask for that support.

Let me go ahead, I might call on these people too. I don't know if it's just one person, but Jimmy and Hattie and George are mentioned there and Booker. They ask several good questions, "How do you activate the church people in what you're doing? And what is the cost for your materials?" They ask that, but let me ask both of them. Then we have been doing a discipleship training for years and it has worked with those who participated. What is it about what you're doing, Gunther, that will make a supernatural impact in the lives of a member, of those who get involved?

Gunther Hess: Mm-hmm (affirmative). First of all, I believe that there are many good Christians around. We have a good Lord and we have good sons and daughters, so I'm amazed to hear that your discipleship program worked very well. Praise the Lord for that.

What I've heard people saying when they've been around me a while was, "I was in a very, very good big church with one of the best teachers," so there's no doubt about the quality of teaching and everything, "But since I'm with you for the first time, for the first

time I've done this and this and that and that." I even can't explain it, there must be something in my DNA given by God that activates people's gift. I can't even explain it. It's just when people stick for a while with me, for example.

There was one woman from Israel, she came to Paphos here to our apostolic hub. I looked at her and I knew she needed to write a book, and I gave her a topic I wanted to write a book about. It's 'Identity in the Messiah.' The book, it's a very good book. I encouraged her, and the team helped her. Now she has published her first book, so the anointing on me somehow is birthing ministries. That's why I said the biggest compliment for me is when people tell me "I've done it for the first time," whatever that is, writing a book, cast out a demon or whatever.

Joseph Peck: The cost of the series?

Gunther Hess: Well, you go to our website and sign up for the material. It's for free, as we believe that we really are about starting movements of multiplication, so we share the basic material for free. We have webinars we do about deliverance. I'll do one later on in August and in October with Joseph, so then I will teach on deliverance.

Joseph Peck: Thank you, Gunther. I really believe that people are going to, just a few people in particular, but I believe a lot of people are going to give to this cause as they listen to the stories. I believe the Spirit, the Living God is going to speak to them spirit-to-spirit and stir their spirit.

Sometimes you can try to ignore something and [inaudible 01:30:28] from the Lord, but He has a way of getting it across, as He did in your dream, a stronger and stronger way to get across the importance of doing certain things.

I'm going to go ahead and unmute Jimmy and Hattie. I don't even know if they have a microphone, but I'm going to see if they're still on the call. By the way, we had about 650 people who registered for this. I just sent out one e-mail from Empower 2000 and Gunther. That's another thing, I'm going to share that story in a second too, Gunther e-mailed some people that he knows as well. I talked to Gunther on Wednesday last week. No, I talked to you on, was it Friday? Friday. What day did I talk to you?

Gunther Hess: Friday.

Joseph Peck: Friday. Friday would have been June 29th. I talked to Gunther on that day. I was hoping that I could go ahead and just create the registration page and set everything up for people to register that day and send out an e-mail, but I didn't do it then, I didn't do it the Saturday, didn't do it on Sunday, didn't do it on Monday. Finally I

did it on Tuesday, and I invested about three hours doing it because I wanted to make it look professional.

I'm only going to do those things when I have clarity and just the exact minute, so this is five days after I had e-mailed Gunther. I sent out the e-mail to him, and he sends me an e-mail at exactly that minute asking about the registration link. I'm telling you, this was five days after I talked to him. Then I invested three hours that morning, I send the e-mail to Gunther and then the e-mail comes into my inbox. He's asking for the registration link. I considered that a very strong confirmation, the Lord saying, "Yes, Joseph, you just completed the most important task of the day."

My wife was asking me about walking the dogs and I said, 'Joy, I've got to get this done. I've got to get this done. I've got to get this done. I'll walk the dogs when I'm done.'" I sent that e-mail and at that exact minute, Gunther sends that e-mail to me and so that ...

Gunther Hess: It was to the second.

Joseph Peck: To the second, yeah. I share stories like that because you weren't invited by, not me to this webinar, you were invited by the Holy Spirit, the Spirit of the Living God, to enter an extraordinary opportunity to be involved.

Let me go ahead and unmute Jimmy and Hattie. I don't know which one of them is on the call here, but I'm going to unmute you here, I don't know if you have a microphone, but I'm going to unmute you here. If you have a microphone, go ahead. Speak up and say hello.

Audience: Hello, do you hear me now?

Joseph Peck: Yeah, we can hear you. Thank you for ...

Gunther Hess: Hello.

Hattie: Oh, good. We go from here?

Joseph Peck: Yeah. I'm so glad you registered for so many of our webinars, and I'm really grateful. I noticed your names come up.

Hattie: Yeah, we do. We've been having fun over here listening and we're glad to see you there, Gunther. You're great. We love what you say. We pray for many missionaries, and I'm grateful that you listen to the Holy Spirit. That's what we listen to, to help us along on the pathway.

We've been establishing Holy Home. We just had two graduations for new Christians that had never been in church, and also people in ministering the spirit to give. So when I saw yours, my husband's, "Oh yes, we've got to look into that." He loves discipleship because he did that on his [inaudible 01:34:25] for 30-some years.

Gunther Hess: Wonderful. Awesome. There are not many people doing actually discipleship, it's one of the most neglected commands in the bible so, I'm always glad to hear people doing discipleship. That's very joyous when I hear such things.

Audience: Yeah, we're in a community that doesn't like church, doesn't like to go. We've been trying to break into this community. We pray for every home. We went by every home and put oil in the driveway, knocked on every door in our little section of the community. We have 300-some homes, so we have knocked on every single door and talked to every family. It's just that they don't like church so we've been praying and asking God what will be the best thing for us in this community. This is where we want to make the most impact.

We've had people meet in our home for Bible study, we've met in other people's homes on the street for Bible study, and other folk's homes outside of the community, but this is where we want to make an impact. I'm hearing you talking about doing a little house church. That might work.

Gunther Hess: Well, go to Luke 10. I do a lot of Luke 10 trainings. People who share with me similar stories, they tell me, "We've tried everything and nothing worked too much." Suddenly they discover how effective it is to bring church to people's homes and even not call it church, call it dinner, like I said. Then during dinner, what you call dinner, you can do whatever you like. You can pray for people, you can share special things, or you can just crack jokes. You sound like you love to crack jokes. In between bring the message. That's awesome. I think try that one, Luke 10.

Audience: Good. Yes, so far we've had people come into the house and we've prophesied over them and their faces just change. They feel the Holy Spirit in this place, and we've seen many people change because of a prophesy. Where we started at with the Lord told us to evangelize people. That is, to go into their home and teach them how to use their Bible. That was the long, slow way around. When we first got married, we used to do that.

Since then, the Lord has brought us, like my wife has said, Holy Homes and bat mitzvahs for the men and bar mitzvahs. I might have it wrong, but anyway we've altogether got people from Hollywood, when we were in California. Now we're here in Georgia, it seems like things slowed down. The people in Georgia, they pretend to be a big church-

going place, but they don't like church. We think maybe your idea, church in the home, will be better. We'll try that.

Gunther Hess: I think that's a huge emphasis of the Holy Spirit right now, to go back to the originals. Maybe you're not aware, but for the first three centuries there was literally no church building. They thus met in the homes, for example in Colossians 4. That's the greeting, "Meet the church in the home of that woman," I forgot her name. There are many Scriptures like that, so the original was just meeting at home. That's what I call extended Kingdom families. I believe that maybe we can do that later on, Joseph. I promise to activate today a prayer, his house church or his apostolic movement, in a short prayer.

Joseph Peck: Yeah, let's go ahead and do that. I'll call on some other people. I want to call on Glynessa.

Audience: Thank you.

Joseph Peck: Yes, thank you.

By the way, Hattie and Jimmy, I just sense that, like really strongly, I sense that you will have a significant activation in your ministry by participating in the prayer, the daily prayer things with Gunther. I sense too that you're not going to just be doing it locally. I don't even know if you can be a country coordinator if you're not part of that country, but I sense that God's calling you up higher in this whole thing.

I'm not just saying it because you're on the call, sometimes I sense really strongly. I'll let you search that out, the significance of that. I do encourage you to participate in those prayer times and then just catch it, because there's an impartation that's happening with Gunther.

Let's go ahead, Gunther. Let's let you do a prayer of activation, and then I want to call on Glynessa. I believe Glynessa has a prayer of activation for you too. I'm sensing that.

I'm going to call on Loretta. Some other people have asked some questions and we really thank you for being a part of this and being involved. Go ahead, Gunther.

Gunther Hess: God, I thank You for the authority given to us, *es corpora ecclesia*, which means that we can make decisions right now. I declare into the spirit world that the prophecies out of the many recognized prophets, that there will be a rollout of apostolic prophetic hubs worldwide, that this roll out will happen now. I activate it in the name of Jesus. I call for all these different hubs in different shapes and forms into existence.

I call for the people now receive a calling that they finally will maybe even understand things You've already shared with them, they will receive and understand their calling to start or to initiate, maybe with a few other people, such an apostolic hub. I declare that callings come upon the people who have this calling on them right now on this very call.

As well, Father, that this webinar will spread, or it just supernaturally [inaudible 01:41:44] connection to us, He will activate it right now in the name of Jesus.

Thank You that in the heavenlies it shakes right now. Thank You that Your angels are busy right now to deliver, to deliver, to deliver, and I call forth apostolic hubs to arise worldwide, in the name of Jesus.

As well, I declare that many doors will be opened, like in Wales. I declare churches coming to your house, in the name of Jesus. I greet the churches in your house, I greet the church in your house, in the name of Jesus. I declare that over America. I declare that over the countries here in Europe. I declare that over Africa and Asia, in Jesus' name.

Father, thank You that there will be multiplication, unbelievable multiplication of such open doors, and I send thousands and thousands of greetings to these newly established house churches in the name of Jesus. Amen.

Joseph Peck: Amen, amen. Thank you, Gunther. Thank you, thank you, thank you. Wow.

Glynessa, I'm going to go ahead and unmute you here and let you share whatever you're hearing, whatever you feel led to share. You're unmuted, Glynessa.

Glynessa: Can you hear me?

Joseph Peck: Yes, we can hear you.

Glynessa: Praise God. Father, thank You so much.

Gunther, I just want to thank you so much for your obedience. I believe that this is why there's such an anointing upon your life to do what you're doing. It's the obedience of the Holy Spirit. I love how the Holy Spirit is given the number one place in what you do. Because of that, God just loves that about you, and I just want to join with you in prayers you have just released so powerfully, that activational prayer, and I join in with that.

Before I start, I saw, while you were speaking and when Joseph was sharing about Empower 2000 and with you, I saw a silver trumpet, and the silver trumpet is called Empower. I'm just going to release that. I just saw this silver trumpet, and then I just saw an angel actually put the silver trumpet to his mouth and begin to blow the silver trumpet. That silver trumpet is going to cause the ears of people to be opened, even right now on this call, that they would hear what the Spirit of God is saying to them in this hour. It's a mobilization that is going forward.

There was a momentum that's coming with it and the wheel is turning, the hub is beginning to move together with Holy Spirit and is causing such a wave and such a movement. Even from the sea there's a shaking, even from the very foundation, because this is very much part of the heart of God in this hour. I just join in.

I would just call forth the wind of the Spirit of God to blow over the nations, over the continent, and to begin to cause people's ear to be open, ears to hear, that they will respond and they will be empowered to the voice of the Holy Spirit to join in and to be part of this global movement. This is such a season of the harvest that we call you forth to hear what the Spirit of God is saying.

Father, we release that angelic movement, a mighty movement of the gathering angels, to gather Your people. Father, we hear, God, that there are so many that are disheartened with church, but we thank You, God, You are calling the house movement again.

Father, we thank You for even the provision to open up for the house churches, and so we call forth these apostolic leaders. We call for every single person who is called to be part of this, to be involved in the five-fold ministry and to join in this hub, and rather, we just release that observation, that anointing, God, to set people free, God, from the mindset of church. To come into this movement of being part of this *koinonia* spirit, the spirit of love and gathering for dinner.

I love the fact that they gathered for dinner, to eat at your table. I just thank You for the feasting. I thank You that You're calling them to Your table that is full and plenty, that they can feast and many lives will come, God, knowing who Jesus is, and they will come to know Him as Lord.

They will go in and they will come out. They will go in and they come out. They will come in and they will go forth, and many nations will be disciplined, many ethnics will be disciplined for the glory of God.

We release an activation anointing even upon this call, right now, anointing to break out of limitations, break out of those things that have been holding you back. You have been searching and crying out for God, and God is answering your prayer this day.

Holy Spirit, I thank You that You are moving on the waters of their heart and You're shaking everything that needs to be shaken to bring them forth into this purpose of this timing, Father God, and this work that is being done in Cyprus in this house of the prayers.

We thank you, God, as You laid out a feast, a dinner, and You're calling, "Come, come all of you. Come from the North, come from the South, come from the East and come from the West. Hear the voice of the Spirit of God, calling you in this hour to be part of my movement," says the Spirit of the Lord.

I just bless you and I release you in this anointing. In Yeshua's holy, mighty name, let the sound of the trumpet go forth. Yeah, God, amen.

Joseph Peck: [inaudible 01:48:14] Amen.

Audience: Amen. Thank you, God. I release this to Joseph, to move back to you.

Gunther Hess: [inaudible 01:48:23]

Audience: But I pray for Joseph. I stand before You and I ask You to increase the anointing of Joseph. Father, in intimacy, teach him how to facilitate or be part of this one-billion soul harvest.

Father, I ask you to give him tools, more tools and more possibilities. Father, I really ask you that your Holy Spirit surrounds him.

The picture I see, a regular pool, it's like the Holy Spirit's surrounding you, like the water in the pool. I ask You, Holy Spirit, that this Bible war I've mentioned that killed forty-eight, that he will receive his healing release for the nations. Healing release for the nations, in Jesus' name, Amen.

Joseph Peck: Amen. I sense that this webinar that we've done together, Gunther, is one of the most significant webinars we've done in 2018 in terms of catalyzing God's brilliant soul vision. This is an incredible opportunity for interview, for all of you to be involved with, and ask you to prayerfully consider what role God has for you as part of this.

I want to call on Loretta, here. Is Loretta still on the call? Yeah, Loretta, I'm going to unmute you.

I can't unmute you, so you can go ahead and just read your question or your comment, then, potentially.

Audience: I'm unmuted. How is that?

Joseph Peck: Okay, thank you. I couldn't unmute myself, so yeah, I want your feedback. I know this messed you up.

Audience: Yes, yes, and, thank you, Joseph. Thank you, Gunther, for being available, because when I saw the email my daughter said, "Hey mama, did you see that email?" I'm like, "What email?" I wasn't expecting to see Joseph for 2 weeks because of his holiday coming up.

I just wanted to say this apostolic hub as well as the discipleship of the nations has been on my heart, and the small groups that Joseph has talked about.

Also, the church we're a part of, we've been doing a webinar, or I should say live streaming church ever since 2007, however many years that is, with Glory of Zion. Chuck Pierce, out in Corinth, Texas.

Yes, the prophecies have gone forth, even the apostolic gathering talking about it, but then here it comes. It's already been in action and they've promoted house churches, businesses of Zion, even smaller churches, and recently started talking about Kingdom helping us to learn.

Okay, we're now in that Kingdom Age, so it's Holy Spirit, okay? It's the Spirit moving on all of us, in the world, in the Body, and we're prayerful about that.

The Lord blessed us with a little over a hundred acres in Union Springs, Alabama. Unless you're from Central Alabama, you don't even know what Union Springs is, talking about a small village, but the Lord had put on one of my daughter's hearts that, "Mama, I just see this place that you're going to build over there. It's going to be spots for people to come." I'm thinking, "Okay, whatever you say," because as you're mentioning that grouping together, I'm thinking, "Well, okay. We're definitely going to have to pray because I don't know who's the apostle, who's going to be the prophet." I mean, those pieces of the ministry, even though as we are learning, I know I'm just talking as we are learning.

They were showing us at First Century Church that all the hubs didn't necessarily have all five administrative offices, how can you say, "Housed" there, but the apostles would go out to some of those places that may not have had an apostle. Of course, eventually

they grew into a big hub so we just might be a team, but yes, that has been on my heart. I even started gathering some people this year to do book club. I'm hoping it'll spring out of that, so, I'm going to let it go. Go ahead.

Gunther Hess: [inaudible 01:54:24] wise, so, that's a very interesting observation. There's even a question I've heard behind what you've said, how to start, how actually to start, "Do I need to be someone special?"

Maybe, while you've listened to me, I tried to share, you can start in a very simple way by having dinner with 2 or 3 or 10 people. I think that's the way how we should start to have an apostolic hub.

Very often when the Holy Spirit is bringing something new, we are not really sure "How does an elephant look like?" as it looks in Africa, so how can I know how an elephant will look like? We will discover this together. At the moment there are a few apostolic centers and I value them, they have some role to play, but still they're peasant to post-Constantine church peasants. People see how they do church and somewhere from there, they try to shift into apostolic centers.

It's pretty much the old school. I believe, that's what my firm belief is, that an apostolic hub has to have family atmosphere, and I said an apostolic hub is not so much about the structure and the organization behind it, it's a spirit.

When I described that spirit, I mentioned my grandmother and the family gathering on Sunday mornings at breakfast together. I think it's not difficult to start an apostolic hub. Don't be overly concerned as to who has which title, "Am I the prophet?" or whatever. Start a breakfast, dinner, whatever, or do something else very simple. I think that's the way to start, to listen to the Holy Spirit and be intentional.

Joseph Peck: Thank you, Loretta, and thank you, Gunther.

Loretta, I was sensing as you were speaking there that a good thing for you to do is to encourage people that you know to watch the video and then just have the dinner. I sense really strongly that that hundred acres that you have, I don't know what the status is, buildings or other things, but I sense too that people might even come gather to clear areas or to build something, or I think there's going to be something that's happening there, the supernatural, with the people coming together, with the family atmosphere in the spirit of unity.

I was thinking the same thing as Gunther. He's an expert here at multiplying these things. You don't have to be concerned about who's the apostle and the prophet; you

just have the dinner. The Holy Spirit is ultimately the one who's speaking through people.

Also what's going through my mind is when you're having these gatherings, you're on an even playing field with one another. Someone isn't up here and people are down here. Each person has a gift, and one of the things you talked about, Gunther, is the importance of each person sharing, that every person has a gift. I say when I'm facilitating the small groups, I have this prophetic baton that Gary Beaton had given to me about orchestrating the small groups. I say that the Number One rule is that the Holy Spirit's in charge.

The second thing is, it's important that every person share. Each person that's a part of that group is like an instrument in an orchestra, and instruments in an orchestra are people with the instruments. They aren't there for decoration. Every person has a role to play and the roles vary depending on what they're actually playing.

I want to share this, too. This came to my mind as you were sharing, Loretta. It's the Number One PowerPoint slide that stood out for me in 2017. I would guesstimate that I saw more than 10,000 PowerPoint slides with the broadcasts that we did, and this is the one that stood out the most.

It's coming to my attention while you were speaking, Loretta, awakening the human spirit cannot be accomplished by yourself. The awakening of the spirit happens most effectively through sharing relationships within a small group. Even Chuck Pierce, he's doing the broadcast out there, when he figures out a way to take these tens of thousands of people and get them into small groups and activated, then that's going to be the most powerful.

I've seen Gunther at work. I've talked to people who have worked with him, and he has the "See one, do one, teach one" model, which is what we use for training physicians. It's not like, "Well, I'm going to watch you, Gunther. You know how you do this house church 10,000 times or 500 times," it's like, "Okay, you've done it. Now, go out and do likewise." In the process, you go do likewise and you say, "Oh, wow. This is amazing. What happened," but then you come back and you have questions. Then those questions get answered, and next time you go out, the more confidence. Going out, Jesus sent people out in groups of two.

Loretta, there is an activation that's taking place in you, I can sense that. Also, by participating in those I want to encourage as many of you as feel led to go ahead and participate in some of these reach-outs. Participate in some of these daily calls. Zoom meetings, they're Zoom meetings. Then as you start to do that, you're going to start to

say, "Hey, I can get off the bleachers. I can get involved in the game of God. I can go ahead, I have a role to play. I am a position on the team. Not only that, God wants me to lead a team."

In other words, as you start to do it you say, "Oh, I could do a team of three people. I could have someone over for dinner. I could do what Gunther did." Gunther's not looking for all these credentials, he's looking for people that have a willing heart and they're available.

Let me go ahead and just read a few more questions here and then we'll wrap it up here.

Yes, so Scarlet said, "Amen. I'm very excited about this. I live in rural Virginia, Appalachia, and I've had this in my spirit, about the apostolic gathering and the Lord raising up hubs that will produce miracles in people's lives."

See, Scarlet, you're talking about, "I live in a rural part of Virginia," and Gunther's talking about starting in small towns. Start in small communities.

Gunther, do you feel you want to say anything to Scarlet?

Gunther Hess: Well, what I've experienced is when I was 18, that is the first thing that comes to my mind, there's a little village in South France. It was a village people left and it was basically neglected, nobody living there. Then there were monks, so the main focus at the moment was they stand. They went there and they prayed there together.

Then in the '60s the Lord told them to build a big church. As they were a small, small group, when they saw the size of the church, and I've seen the video, he said, "That's so big, this place is for thousand people, Lord. What are we going to do?"

Two or three years later, they had to pull down one wall and then they just put a tent there because there were tens of thousands of people in this neglected, remote little village in France in the middle of nowhere. I believe prayer is so attractive that when you start in your small town and if you really start to pray in an earnest way, that will be so attractive that people will run after you, that hopefully you don't have to break down the walls of your house just to make room for those coming.

Joseph Peck: Will you pray a prayer of activation specifically for Scarlet there in Appalachia, Virginia?

Gunther Hess: Okay.

I speak forth, Scarlet, that all the fears that have built up in your life and all the people saying that you can't do this and you can't do that, and especially the church traditions that have held you back from doing even a small step, I break that in the name of Jesus. I don't allow anymore that this governs your life, but I declare you, Scarlet, have entered the Kingdom of heaven, where everything is about obedience to the Lord, not what other people are saying or what tradition used to demand from you. So, I set you free. Every demonic spirit, even attached to death, has to leave, in the name of Jesus. I speak forth you're well able to start an apostolic hub, in the name of Jesus.

Joseph Peck: Amen. Amen, and that's Gunther's par peers authority, in Jesus' name. Thank you so much.

Bear with me for just a second, here. I'm just glancing at other names.

I want to call Chris Burkhart. He said that the deliverance session dates are just a question on your website, Gunther, at rapidchurchplanting.net or apostolic-hub.com. You say, "The deliverance sessions or the class starts December 2017. Should it be 2018?"

Gunther Hess: No, just not updated. This year we still do a lot webinars as I am constantly, constantly traveling. It's not an updated web. Like I said, we will do a deliverance webinar in August, this August and [inaudible 02:05:50], I think.

Joseph Peck: Okay, so with that, we have the date. We already have the date picked out for the free webinar for the deliverance thing. Then he's going to begin a six-session class. He's going to do three weeks and then I think he's going to do three weeks in August. I don't even remember the date for the free webinar, it might be in early August, I just can't remember, but I'll send out a notice to about 30,000 of my subscribers about that.

Gunther's training—it surprised me how many people signed up. That was before my list had grown too, because of his, but his deliverance training was the best deliverance training that I've been exposed to.

It's not real sophisticated. He's not giving you just a ton of knowledge, he's giving you practical things that you can do, and he also brings on some other people that are sharing, "While I was a pastor of this church, I didn't even know about deliverance. Gunther came in, talked to me about this. I tried it, it worked, and now how I do church is totally different."

Something that all of you can do who are listening to the sound of my voice is refer people to the replay. You're going to receive a follow-up or a few follow-up emails with the link to the replay. We want to encourage you to multiply the message, to let people know.

You can put just the title of the webinar and the replay link in Facebook, or Twitter, or Instagram. Anyway, you can do something. You can put out the messages. Multiply those messages.

I found in my own personal life that when I share the good things that God's exposing me to, that God allows His fresh living waters to continue to flow through me so more good things come into my life. I believe that's a universal principle. That the more you share the good things, the more that God's good things can flow through you. New, good things will come.

Let me call on Louise May, if she's still on here. She's still on here.

Okay, Louise. I don't know if you can unmute yourself, I don't know if you have a microphone, but if you can unmute yourself, we'd love to hear your feedback, what you have to say.

Oh my gosh. Paulette's on here too. She's a good friend of yours, Gunther. I'll have to call on Paulette.

Louise hasn't unmuted herself, so Paulette, I'm going to unmute you if I can. It's not letting me unmute you. Paulette, I don't know if you can unmute yourself? Next to your name, you can click on it and be able to speak up. If you have any way of being able to speak up, we'd love to be able to hear from you. Paulette?

Gunther Hess: You're in [convo] with me, so she's the lady here on the top on the right side. That's Paulette. She is a prophetess, and I've seen her giving the most unlikely prophecies turn into reality, so she's an amazing prophetess of God.

Joseph Peck: Yes, yes. Yes, yes, yes.

Well anyway, blessings to you, Paulette. I would love to hear your voice. I think I've heard your voice. I think I've spoken to you before, but anyway, yeah, I'd love to hear your voice if you could unmute yourself.

I'm just glancing through. We'll wrap this up here, I'm just taking a look here. There's a lot of names to go through. I could do this easier when I had younger eyes. I'm just going to glance just at the questions here to see.

Yeah, Chris is just saying, "Thank you for that."

This is a good one, here, this is from Sheila. She says, "I wish I could help financially for the missions and attend a prayer online, but I think Europe time won't coincide with your time for prayer, as I will be at work that time." Apparently she's working in Europe and Gunther is in Cyprus. Gunther, what time is your prayer or your prayer call?

Gunther Hess: It's on 4pm Cyprus time, on Jerusalem time. Then Central Europe time, it's 3pm, and in New York, it will be 7am in the morning, but we have people from America attending in the mornings. That's the first thing they do, so it's possible for some people who aren't at work or still not at work.

Joseph Peck: I just wonder, Gunther, if it'd be possible to even do a little trial for doing some earlier time for Europe so that people could, I don't know what time, 7:00 in the morning? I don't want to tell you what to do, and you don't have to even necessarily even lead it. In other words, if you just get someone who's been a part of your group to do another time, now you're offering different time options, because that might be the case with a lot of people. They might be too late.

Gunther Hess: That's the idea, that people can use the soon link. If there's a little group, then they can use this link for other times independently from me. That's the idea that they can pray there together, once they have learned the flowing of Spirit.

Joseph Peck: Maybe one of the people that's participating in your current one could just help get that going and we could let people know? In other words, we could take the 650 people that are registered here and invite them to sample that at another time and then start another one. Then you take someone from that group and then you multiply those prayer groups.

Gunther, is it okay too if I send the handouts that you have about the apostolic hub in Cyprus and then also the one about being a country leader? Can I share those with everyone, or do you want just people who have asked for it?

Gunther Hess: You can share the video. You can share the country coordinator paper as well, the outline on the apostolic hub for Pathos, where I am at the moment.

Joseph Peck: Okay.

Gunther Hess: You can share everything you feel that helps for this rollout. Maybe I can share one thing about myself. People who know me, they know that I'm very shy about speaking about money and I never speak about personal needs. People who listen here

with me, I've never even once asked someone, but today I am bold as a lion. I'm bold as a lion when I go to Conga and all those different places. When it comes to finances, I'm shy like a mouse, but today I'm bold.

I feel the urgency of the Lord. This has to happen, this rollout, and part of it is this very important hub here in Pathos that's such a great urgency.

I was pushed through God's leading to be here. Honestly, I didn't know where Cyprus was, exactly, on the world map. I would have thought it's more towards Greece. I was quite astonished to find it more Israel, here, so there's a great urgency to build a strong, prophetic and apostolic people here on that island.

Maybe, and I say that with all caution, maybe there are one, two, or three people who should relocate and consider coming here for building up the prayer-time armies. We are not militant people, only in prayer of course, but maybe there one, two three people out there, that's what I feel, should consider maybe for saving a holiday and meeting up with us and maybe to relocate to come here.

It's important. **It's actually important that we have this hub here in Pathos.**

Do you know that all the conquerors, the big empires throughout history, the first thing they did was to conquer Cyprus? It's strategically located. Turkey is a hundred kilometers from here, Syria, Egypt, Israel, and when from a mid-currant perspective, once you've conquered Cyprus, you dominate the whole region here.

I believe we are not militant people when it comes to that, but I believe spiritually, this is an island of peace. It's very peaceful here, but if we have dominion in prayer here over this island, we will have a big influence in the whole area surrounding.

As you know, the Middle East, that's something, and it's connected to Israel issues and end-times, but we have to take over here, in prayer. It's of utter importance, and it's no accident that the Lord prepared me in a very deep way to doubt myself and everything and that He sent me here with such a great urgency. It's no coincidence.

Joseph Peck: Thank you, thank you, thank you.

Just to remind you, in the book of Acts the people were praying deep prayer seeking the mind of God, the heart of God, and from that place of deep prayer and intimacy adhering from God, they sent forth Paul and Barnabus on their first stop on their first missionary journey of the three missionary journeys. It was the very first stop that helped reach Europe and the gospel of message went forth.

As Gunther said, this is very strategic. He senses the urgency. I do, too. This was not on my radar screen to be hosting this extra webinar this week on the 4th of July week when I'm off this next week, but I sensed the urgency too to just get out the message and ask people to get involved, to help financially. We encourage you to pray about that.

Thank you so much, Gunther, for sharing your message, for sharing God's heart about this matter. Thank you for all of you who have been live. Thank you for all of you who watched the replay and do your part in multiplying this message.

This concludes our broadcast on WGOD, God's broadcasting station. God's collapsing the quiff, bringing heaven to earth and earth to heaven, bringing the unseen into the seen at accelerated rates. The apostolic hub in Pathos, Cyprus is a critical place where God is moving, a very strategic place.

Blessings to all of you. We look forward to connecting again and thank you again for participating. 'Bye-bye.

Gunther Hess: Bye-bye, from Pathos.
